Subject: Updated Pavillion Monitoring Program Draft

We received the enclosed from the State of Wyoming. In a brief call, the Governor's office described it as a modest revision of the earlier draft, with updated (and higher) cost estimates. We understand that the draft is also being provided to Encana.

We're not sure of next steps at this point, but it would probably be helpful for the technical team to review the new draft to see whether there are any major points of interest.
